Michigan Language Assessment Selects Prometric to Expand Access to English Proficiency Exams

Partnership to enable learners to test from home.

Ann Arbor, MI [DATE] – Michigan Language Assessment is delighted to announce its partnership with Prometric, a leading provider of technology-enabled testing and assessment solutions, to support the transition from paper-based testing to online-English testing. Michigan Language Assessment will leverage both Prometric's global test center network and remote proctoring solution, ProProctor™, in its newest, most popular exam: the Michigan English Test (MET) Digital, coming soon.

This partnership expands Michigan Language Assessment's network, and using ProProctor, Prometric's proprietary remote proctoring platform, ensures the security of their at-home test administration. The MET will be published on a third-party driver and utilized across Prometric's secure, global test center network and A.I.-augmented, live remote proctoring platform. It enables Michigan Language Assessment to offer exams any day of the year in more than 180 countries.

"Prometric is pleased to have been selected by Michigan Language Assessment to enhance its exam delivery capabilities, including transitioning their English proficiency exams to an online format," said Sean Burke, Chief Client Officer at Prometric. "Michigan Language Assessment's commitment to helping people achieve their education and career goals is imperative, and Prometric is proud to leverage our multi-modal delivery solution to bolster testing access for those seeking to advance their English language proficiency."

Michigan Language Assessment has verified the proficiency of English language learners of all ages and levels for more than 70 years. Its exams are trusted by academic institutions, businesses, and governmental agencies worldwide. Now, with the addition of Prometric and its remote capabilities, it will also provide proctored online exams that can be delivered securely in test centers as well as at home.

"We're excited to be working with Prometric," said Sharon Harvey, CEO of Michigan Language Assessment. "We are committed to offering maximum flexibility to our customers, and, for the first time, test takers will be able to take Michigan exams from the comfort and safety of their

homes. We are grateful to Prometric for helping us to support our customers during the COVID-19 pandemic and beyond.”

[Michigan Language Assessment](#) is jointly owned by the University of Michigan, one of the top public research universities in North America, and Cambridge Assessment English, part of the University of Cambridge in the UK.

About Prometric

As a global leader in test development, testing delivery, and candidate services, Prometric partners with the world's top credentialing and licensure organizations to design and deliver leading exam programs that help individuals advance their careers and serve their communities. Our integrated, end-to-end solutions provide exam development, management, and distribution that set the industry standard in quality, security, and service excellence. Prometric leverages our proprietary platform, advanced technologies, and vast operational experience to deliver an exceptional user experience on our world-class secure testing network.
